

We were told 2 weeks before Christmas that the government is going to tear down our building in the summer of 2017. They will also be relocating several other families homes to make the current pond behind our home into a lake...its a part of the beautification process of our city. So now, along with all these other needs, and our day to day costs, we need to raise money for a new building. We are still in the negotiation process with the government as to where we can move and how much compensation we will receive from them. Please be praying for us during this time to have wisdom, knowledge, discernment and a lot of patience.

As of right now, what we know, is that the civil affairs said they are positive we are able to buy 1.5 acres and build a new home on it. They are trying to find the best location for our needs, but have already said they know it won't be in the city. We were given an estimate to buy the land and to build a new home for our kids for \$2 million.

While we are waiting for the civil affairs to find the perfect place for us, we have been searching the city limits to find anything that we can renovate, which would help us stay in the city. We found the above pictured place. It's an old postal yard that has been abandoned for the past few years. The mayor said he would check to see if it was available but did not have high hopes.

If we were able to buy this warehouse, we have a rough estimate of \$1 million dollars to buy, renovate, and build to make it fit our needs. This place is sitting on 3 acres of land and will really give us room to grow and play.

Please be praying for us to get this abandoned building, we really have our hearts set on this place. Also be praying for all the funds to come in that we will need to make a new home. As of right now we are asking for your help to raise \$1 million, but if the warehouse falls through, we will need to raise \$2 million. We need God's hand to move in a big way here.
